### Agri-Plastics FlexPen

**NEW PRODUCT**

The new Agri-Plastics Flex-Pen is the first of its kind on the market to date. This new stand-alone Flex-Pen has a detachable centre panel so calves can be grouped together or housed individually for health or welfare reasons. It also has multiple “flexible” setup configurations and can be extended to any length the customer wishes.

- Adjustable bucket heights
- Optional Quick Release Wire Bottle Holder or teat bucket
- Flex-Pen is also available for the European housing standard
- Reinforced steel frame inside the front panel
- Efficient calf viewing
- Easy to clean and lightweight
- Molded from heavy gauge plastic
- Units can also be wall mounted
- Compatible with robotic feeding
- Adjustable rear rotary vents
